

MIRACLE CLAY

MIRACLE CLAY CAPS ARE CURRENTLY PACKAGED AS NATURE'S MIRACLE.

Miracle Clay is a natural-occurring substance, pure and unaltered by man. Its effective results, have been the answer to a variety of different ailments as well as an amazing preventative. While there are many different types of clays, Miracle Clay stands alone in its unique mineral makeup, leading to wonderful and consistent results.

It's nice to know how Miracle Clay works! Miracle Clay has a 100% negative ionic value, versus bacteria, viruses, fungi, disease, radiation and toxic chemicals which all have a "positive" ionic value. Acting as a "vacuum cleaner," Miracle Clay will suck up many times its own weight, pulling the bad matter into its own structure and sucking it out of the body through the colon. Miracle Clay promotes rapid healing by infusing the body with a wide range of minerals such as calcium, iron, magnesium, potassium, silica etc. that help cellular rejuvenation. When applied externally, Miracle Clay's strong pulling action sucks out the bad stuff and brings circulation to the area, to reduce pain and promote healing. Miracle Clay also draws the sting and pain out of insect bites, burns, wounds and so on. Miracle Clay stimulates the immune system and energizes cells resulting in a new, healthy balance.

It's called Miracle Clay for a reason!

Miracle clay has been used for generations with amazing results for a wide range of uses.

Promotes: energy • vitality • clear mind • alkalinity • joint health

- Candida
- Detoxification
- Food Poisoning
- First aid tool

- Tooth infection/pain
- Ulcers
- Warts

Other Uses:

- Allergies
- Autism
- Arthritis

Daily Dosage		
Your Weight	Capsules	Powder
50 lbs. +	3 Twice a day	3/4 tsp. 2x daily
20-50 lbs.	Each Capsule = 1/4 tsp. powder	1/2 tsp. 2x daily
15-20 lbs.		1/4 tsp. 2x daily
Under 15 lbs.		1/8 tsp. 2x daily

If desired results are not achieved, dosage may be increased. For general use, daily dose may be combined into one.

Directions for Miracle Clay powder:

Place 4-8 oz. water (warm dissolves faster) or juice in a jar, add powder, cover and shake well immediately. Do not stir. It's important to put liquid first and then powder. Let sit for 5-10 minutes or overnight and re-shake.

Powder can be mixed into yogurt, apple sauce, smoothie or any food.

Preparation for multiple dosages:

Adults:

Add 1/4 cup Miracle Clay powder to a 2-quart jar (preferably glass) of liquid and shake well. If water is used, refrigeration is optional.

Shake before use and drink 4 oz. at a time, which is equal to 3/4 tsp. powder. Will create 16 adult dosages.

Babies:

For multiple servings, mix 2 tsp. of clay powder in 4 oz. of water. 1 tbsp. of this solution = 1/4 tsp. powder and so on. It is best to soak overnight before use.

Important Notes

1-For acne: A clay mask is a great way to draw out the skin's impurities and excess oils. Apply a thin layer of clay cream to face and allow to dry for 15-20 minutes. Rinse with warm water and pat dry. For dark circles under eyes and puffiness, apply a layer of clay cream to affected area.

Follow with a quality moisturizer such as cold pressed coconut oil if skin feels dry. Can be used daily.

2-For acute diarrhea and/or vomiting: Take a dose of Miracle Clay every hour until symptoms are gone. There should be marked improvement within several hours.

3-For H-pylori, chronic diarrhea and other stubborn digestive, intestinal, or skin disorders: Increase dose to 3 times daily. For digestive/intestinal disorders, preferably take Miracle Clay in powder form.

4-For detox, parasites, heavy metals and deeper cleansing as post-long term medication. Triple the daily dosage for 21 days.

5-Therapeutic dose: In case of food poisoning, drug overdose, or severe stomach irritation, consume 1-2 tbsp. or take 12-24 capsules. Adjust dosage for children accordingly.

6-Maintenance regimen: Can be taken on a daily basis to support the body's immune system, absorb toxins and balance pH level. Daily dosage can be combined.

General Information

- Absorbs unpleasant odor. Use in refrigerator or any smelly area.
- Ensure that Miracle Clay does not have prolonged contact with metal. Minimal contact with metal, such as the cap, is acceptable. Keep Bottle in upright position.
- Clay experts recommend taking Miracle Clay 3-4 hours apart from medications, or the length of time it takes

for medication to absorb. You may check with your doctor to determine absorption timing.

- Check with your doctor regarding use of time-released medications.
- Keep out of close proximity to chemicals and strong odors.

Drink adequate amount of water while using Miracle Clay. If your water intake is low, pre-hydrate clay powder by letting the mixture sit for 6-8 hours before using.

If your body has an overload of toxins, slight constipation may occur during the first period of use. While Miracle Clay is cleansing your system, work through this possible short-term constipation by drinking more water, adding soaked prunes and/or taking Nature's Cure-Constipation Care to help the body quickly rid itself of the toxins. If necessary, reduce dosage until constipation clears and gradually resume with the suggested dosage.

4 EASY STEPS FOR TOPICAL APPLICATION

① Apply Triple Power Cream, Coming Soon at Your Health Food Store or Mix Your Own Cream Using Instructions Below.

Can be prepared in advance. This cream will work on most cuts, wounds, bites, rashes, acne, infections or skin irritations.

Combine:

1 part Miracle Clay powder

3 parts water, preferably purified water

Example: 1 tbsp. clay and 3 tbsp. water

For stubborn wounds substitute one-third of the water with Nature's Cure - Colloidal Silver.

Please note:

At first cream will be loose, thickening as it sits, until reaching the ideal pudding/mustard consistency. If loose, add powder; if dry, add water. Keep in a cool, dry place. Miracle Clay absorption varies from batch to batch. Always make sure to get the right consistency.

② Place Cream Over Wound.

Preferred cream thickness 1/4 - 1/2". For large pussy wounds apply 1/2 - 3/4 " thick layer. Cream should overlap wound.

③ Cover to Keep Secure and Moist.

Dried out cream loses its pulling power & will stop pulling infection out; keep moist and replace if dry.

Choices of Wound Covering:

Glad Press' n Seal* Saran wrap (affordable option, sticks well, sold in groceries), Tagaderm* or Island Dressing*. For smaller areas eye patch bandages are ideal. Hypafix* or Transpore* skin tape for sensitive skin.

④ Change Dressing.

Change the dressing from twice daily to hourly, depending on severity of wound. Leave on overnight.

WOUND DRESSING WITH GAUZE

Gauze may be used to simplify cleanup and to keep ideal cream thickness $\frac{1}{2}$ - $\frac{3}{4}$ " over wound. Recommended for burn and sensitive or large wounds.

Important:

Cream needs skin contact, to be effective. Use recommended gauze only! See shopping list.

Extra gauze sachets can be prepared in advance to simplify replacement. Store in a closed container.

WOUND HEALING PROTOCOL

TO PREVENT RECURRENCE

MRSA, Cellulitis, Ulcer, among others

External use: Apply Triple Power Cream or mix your own cream with Colloidal Silver. Apply warm compress or soak prior to applying cream to expedite process.

Internal use: Follow this protocol for at least 3 months.

1. Take suggested daily dosage of Miracle Clay/ Nature's Miracle.
2. Take suggested dosage of Nature's Cure - Immune Power 3x daily.

At first, wounds may recur, then will be milder and less frequent before they disappear completely. It takes time to get MRSA out of your system.

CHECKLIST

For Stubborn wounds that do not heal

- > Cream is too hard.
- > Cream is not thick enough $\frac{1}{2}$ - $\frac{3}{4}$ "
- > Apply cream more often.
- > Keep moist! Dry cream has no pulling action.
- > Gauze too tightly knit, not enough skin contact
- > Hard red wounds take more time to open and drain than the typical MRSA.
- > Warm compress before applying cream is recommended.

Works wonders, and amazingly quick when done right.

SHOPPING LIST

Nature's Cure - Miracle Clay/Nature's Miracle

Nature's Cure - Immune Power

Nature's Cure - Colloidal Silver, if mixing your own cream

Nature's Cure - Triple Power Cream

MooreBrand - Gauze Pads* Item # 08250
